

## **InLight 2020: SAFETY & ACCOUNTABILITY**

1708 Gallery's 13th Annual InLight Richmond will take place from November 12 through 15 at multiple sites across the City of Richmond. Inspired by the mutual aid and community care that we have witnessed these past few months, InLight 2020 will feature artworks that respond to and elaborate on themes of Safety and Accountability.

InLight is a public exhibition of contemporary light-based artworks—multimedia and interactive projects, video, projection, sculpture, installation, performance, community-based work, digital and virtual projects—and has historically taken place in a singular location each November. Past sites include Chimborazo Park, the streets, facades and alleyways of the downtown Arts District, and the sculpture garden and grounds of the VMFA.

In response to COVID-19, InLight's multi-site platform will allow for socially distanced and virtual viewing. Further inspired by the ongoing community dialogues surrounding the unjust and inequitable treatment of Black lives and by Richmond's coming together in support and aid during these crises, this year is focused on Safety and Accountability.

Artworks will be located in the Edgehill / Chamberlayne neighborhood, in Church Hill, through the Downtown Arts District, at the T. Tyler Potterfield Bridge, along the Richmond Slave Trail, in the Randolph neighborhood, and more. Additionally, a series of streaming and virtual projects will be featured online. Visitors will explore the artworks over 4 nights, navigating the sites via a digital platform; all artworks will be outside.
